SUMMARY

I am passionate about solving complex problems, creating various web applications, and developing software that automates daily life processes. With my skills, I strive to contribute to society by building innovative solutions that make life easier for people.

WORK EXPERIENCE

Najot ta'lim, Tashkent | Frontend teacher & freelancer

Sep 2023 – Present

- Based on my knowledge, students were taught Vue and Node technologies
- An e-commerce site designed specifically for pets has been created. Currently in the process of integrating with click, payme and grape payment systems ([link](#))
- A site was created for the sale of cars based on the order
- Increased handling of reusable components, application errors, and dynamic routing
- I am currently building my own platform for online teaching

Viento Group, Tashkent | Frontend developer

May 2023 – Sep 2023

- New technologies used by the team in projects were studied.
- Implemented changes to 3 services in production using Nuxt, vue 3, typescript, REST API
- Developed the frontend part of several websites: miniature, essi, pharmlive
- Contributed to code quality by reviewing other teammates' code per week

HomeDev Agency, Tashkent | Fullstack developer (internship)

Oct 2022 – May 2023

- Developed the frontend part of several website: homedev
- Participated in the development of several projects: EDU crm, "veloprokat"

SamTUIT, Samarkand | Frontend developer & Technical worker

Sep 2021 – Oct 2022

- I have been servicing the library computers here
- At the same time, I worked on the development of the library website. The frontend of the library website was created by me
